MISSION: Each year our NOVA Award program honors Lockheed Martin men and women for outstanding achievements in leadership, teamwork, service and technology. Their exceptional efforts redefine what's possible for our customers, shareholders, partners and communities. It is with great pride and appreciation that we present this year's stars.

LOCKHEED MARTIN

SUCCESS: Their achievements were nearly as far ranging as our galaxy itself. To merely list them would require another page this size. To elaborate, in even modest detail, would fill the pages of this paper. Suffice it to say that this year's NOVA Award winners contributed to our corporation and our customers worldwide. "NOVA" is defined as a stellar outburst of creative power. This year, an entire constellation burst forth at Lockheed Martin.
